

## Works Notification

January 2017

# Gold Coast Light Rail Stage 2

CONNECTION OF GOLD COAST UNIVERSITY HOSPITAL STATION WITH STAGE 2

Work to connect the existing station at the Gold Coast University Hospital to Stage 2 of the light rail will continue throughout January until April 2017.

### Work will involve:

#### Station work from January to March 2017

Part of the existing northern platform in the station will be removed in late January-early February 2017 to expose the second light rail track underneath. This will involve:

- Installation of temporary fencing and barriers.
- Saw-cutting sections of existing platform slab on the northern side of the station into sections. **This work will occur between 1.00am to 4.00am when there are no trams running.**
- Removal of the existing temporary platform on the northern side of the station via the tunnel up to Olsen Avenue. **This work will occur between 1.00am to 4.00am when there are no trams running.**
- Removal of concrete sections to enable the installation of tactile indicators, line marking, pedestrian crossing signals and handrails.

### Information for passengers:

Light rail services will continue during works, however, there will be some changed conditions once work begins on the northern platform. These include:

- Passengers will disembark and board on the southern platform (Griffith University side) until closer to Stage 2 operations commencing.
- Ticket machines, go card touch points and information/help points will not be available on the northern platform.
- All entry and exit points from the station will remain accessible with signage and barriers in place to help direct passengers.

### Tunnel work from January to April 2017

- Construction of retaining wall.
- Shotcreting the tunnel face.
- Installation of pre-cast fascia panels.
- Installation of track slabs, overhead lines.
- Installation of lighting, signage.
- Demolition of sections of existing track slabs.

Every effort will be made to keep construction impacts to a minimum. We appreciate your patience during these important works and will continue to update you as work progresses.

### Contact the project team

If you have any questions or would like to register for more information, please contact the CPB Contractors Project Team on **1800 425 799\*** or email **[gclrstage2@cpbcon.com.au](mailto:gclrstage2@cpbcon.com.au)**. ### Project information

Gold Coast Light Rail Stage 2 involves the design and construction of a new 7.3km route which runs from Helensvale heavy rail station adjacent to the Gold Coast Line, then adjacent to the Smith Street Motorway to connect with Stage 1 at the Gold Coast University Hospital light rail station.

GoldlinQ's construction contractor CPB Contractors commenced construction in July 2016 and are committed to completing the project in time for the Gold Coast 2018 Commonwealth Games.
